Seohae ready with fully integrated MTS solution

We are happy to let you know that Seohae Sales & Services, the after sales and service group of Seohae Marine System, have completed their SupplierLink integration to MTS. This makes Seohae one of the few suppliers world wide with a fully integrated e-business solution. Seohae is us using ShipCentrics Dynamic Ship Supplier sales order management system for marine suppliers and the MTS integration is made into this solution.

With SupplierLink Seohae will receive and issue e-business transactions directly in their own system. Peter Peltenburg, responsible for Sales & Marketing in Seohae, says that "We really look forward to start receiving and issuing transactions over the integration and to be able to improve the process time and quality in our response to the customers."
